Experience

FriendliAI

Graphic Designer

- Owned the design direction, production, and vendor alignment for company graphics displayed at top Silicon Valley and APEC conventions including Nvidia GTC San Jose, CA, SuperAI Marina Bay Sands, Singapore, and HumanX San Francisco CA
- Built a robust project management system from scratch utilizing Notion for tracking and ideating on all marketing org initiatives. Implemented interconnected self-built automations created with the help of Notion's AI assistant. The dashboard automated project and task creation, scheduling tasks through a master calendar, and maintained streamline viability. The dashboard is broken up into 3 main sections: our team's wiki full of important resources, our master calendar, and current projects and tasks
- Increased organic company LinkedIn impressions by 90%, and followers by 92.3% within Q1 2026 through a consistent, purposeful posting schedule backed by our Notion project manager
- Worked cross-functionally with our GTM team to build customer facing power points for large scale APAC events including AWS Unicorn Day in Seoul, South Korea and SuperAI in Marina Bay Sands, Singapore
- Aligned with partners including NVIDIA and Kilo in external channels to develop co-marketing initiatives across blogs and social media
- Designed landing pages for FriendliAI customer stories, campaigns, and use cases using Figma and Webflow

Weaviate
